Carson Readies **Annual Rock-Climb** For Tourists

the Pikes Peak regon's most popular tourist attraction - is Ft. Carson's annual military mountaineering demonstration presented each Tuesday and Thursday from 10:30 to 10:30 a.m. starting June 20 in North Cheyenne Canon.

Ft. Carson's Noncommissioned Officers Academy presents its soldiers in mountain and rock climbing techniques that have thrilled thousands each summer. James W. Whittaker, first American to scale Mt. Everest, was a Carson climber 10 years ago.

monies will be held in the 77th Armor area at Carson. The 179th Army Band will provide music for the occasion.

The tankers stayed behind when the rest of the 5th Dvision returned to Carson at the end of Exercise COULEE CREST.

Tank crews drew praise from Brig. Gen. E. C. Dunn, assistant 5th Division commander, when he visited them at the Firing Center last week.

Maj. Gen. John A. Heintges, Fo Carson and 5th Division corpmander, said the tankers "have done a terrific job in Yakima wah their live firing". He said the Yakima Firing Center range control officer called the 77th "the best tank battalion he's ever seen," and praised their efficiency and professional competence. Two crews of the 77th's Company C, Sgt. Leslie Chavis' and Sgt. George Tilley's, came out of the rugged qualifications as experts. The battalion also boasts

several sharp-shooter crews. Shortly after returning to Carson the men of both units will leave for Camp Perry. Ohio to support the annual National Rifle Association matches there while entrants from all over the country fire for six weeks.

ROSE GROWERS!

can be yours

ARE YOU WAN AND NERVOUS, WORRYING ABOUT YOUR ROSES? ... WORN OUT TRYING TO BRING THE BLOOM BACK TO THEIR CHEEKS? ... RUN-DOWN TRYING TO FIGHT OFF INSECTS AND DISEASE? HELP IS HERE AT LASTI ORTHO HAS PUT TOGETHER A ROSE KIT THAT TAKES CARE OF EVERYTHING BUT THE THORNS!

At last you can relax. Instead of struggling with a special spray for this insect and a special dust for that...or trying frantically to find the perfect fertilizer...you reach for one handy rose kit. The Ожтно people have packaged together everything you need to get the blooms you planted for: the ORTHO Rose Duster and a bottle of ORTHO Liquid Rose Food.

Rose Dust controls both insects and disease. And ORTHO Liquid Rose Food is just what the experts ordered to feed roses-a balanced formula in easily-digested liquid form.

EASY DOES IT

The Ortho people wanted to simplify the timeconsuming task of rose care. First they invented Rose Dust. By combining insecticides and fungicides, they did away with the need for doing two jobs: controlling diseases and halting insects. Then they developed the pliable plastic duster. You just aim the Rose Duster and squeeze. You put protection on blooms and leaves-"pouf"... like that! If you "pouf" around the rose bush about every 7 to 10 days during the growing season, you'll probably stop trouble before it ever starts. Rose Dust wards off most bugs and blights that ruin roses. Aphide, thrips, rose weevil, Japanese beetle, powdery mike, black spot and nust.

ROSE FOOD FOR THOUGHT

Then they set out to make a perfect rose food. They had to find a formula that gave roses all the nutrients they need; a food that also gave a quick feeding for a surge of growth as well as a steady feeding to keep bushes growing strong. The answer: Ortho Liquid Rose Food, loaded with nitrogen, phosphorous and potash. With a chelating agent added to "unlock" iron and other valuable minerals in the soil and make them available to the roots. They made it liquid so roses could take it in quickly through their leaves as well as through their roots. So ORTHO Liquid Rose Food goes to work fast, then lingers in the soil for lasting feeding. Result: you get bigger blooms and more of them. Longer, stronger stems. Healthier foliage.

How many years before Father's Day were fathers enjoying Gordon's?

Exactly 141. For Alexander Gordon introduced his remarkable gin to London's fathers way back in 1769. The first official "Father's Day" took place in 1910 at

Spokane, Washington Today, Father's Day is celebrated throughout the nation while Gordon's is celebrated throughout the world. Indeed, it is the biggestselling gin in all of

England, America, the GORDONS world. Probably because it still harks back to Mr. Gordon's original DISTILLED formula. We've never found reason to tamper with such distinctive dryness and rare flavour.

The test ban meeting in Moscow is set tentatively for July. That may mean Khrushchev has run out of patience with Peking's warlike Red disidents.

Another important Moscow meeting is scheduled for July, between representatives of the bellicose Chinese party and members of the Soviet Central Committee They plan to discuss their deep con lict.

Kennedy, announcing the projected test ban talks, said mankind need not accept "the conclusion that war is inevitable.

The notably hopeful tone of the President's discussion of future East-West relations can only enrage the Red Chinese, who have been loudly scornful of Khrushchev's peaceful coexistence line and have called for the Soviet leader's head on that score.

Khrushchev will insist that the ideological war with the West will continue, and that communism will compete effectively with economic and political weapons. But that will hardly assuage Chinese feelings.

The Chinese categorically reject Khrushchev's idea that total war can be avoided. Peking and its allies insist that total war between the two world systems is inevitable. The Russians, with much more to lose than the have-not Chinese, say it's not so any more.

Pressures and changes in the U.S.S.R. now may require any Soviet leadership to put the interests of the nation and the Soviet people first, even ahead of Commuviet society exhibits more natural ties with Europe and the West than with China and the East. Khrushchev is sensitive to these pressures and changes.

Many times the Soviet leader has displayed a belief that the United States and Russia have mutual problems, interests and responsibilities in a world threatened by nuclear catastrophe.

Now Kennedy speaks of a "mutually deep interest in a just and genuine peace and in halting the arms race.

He speaks of common U.S.-Soviet interest in preventing war, since the two nations would be the primary targets and "most in danger of devastation.

The President also spoke of the possibility of diverting vast sums now used for armament to "combat ignorance, poverty and disease." Khrushchev has used almost identical words and in so doing enraged Peking.

Kennedy also noted that Americans Russians, while defending their own vital interests, "must avert those confrontations which present an adversary with a choice of either humiliating retreat or nuclear war.

That was almost the situation last October when the President forced a showdown on the Soviet missiles in Cuba. For withdrawing the missiles Khrushchev was accused by the Red Chinese of making a hurniliating retreat. The Cuban crisis added fuel to the burning dispute in the Communist

SUNNY BROOK

announces a

BREAKTHROUGH INWHISKEY SMOOTHNESS

It must be tasted to be believed! Today Sunny Brook is made in a new way which completely eliminates roughness and harshness. Sunny Brook now offers finer flavor plus a miracle of mildness and unmatched smoothness.

Whiskey-making, one of the most traditional of skills, has been marked by very few startling break-throughs. But...now ... Sunny Brook has broken with tradition. It has made changes in production methods which not only produce finer flavor, but completely eliminate that certain harshness and roughness. It is a great advance in whiskey-making.

You will find in Sunny Brook a superb gaste plus a new softriess. It must be tasted to be believed, and is milder and smoothen than any other whiskey you have even known. Any way you choose to drink Sunny Brook, you will not detect a trace of harshness. Enjoy Sunny Brook's fine

Make this your day of discovery. Tonight and taste-mild, mild Sunny Brook.
